

Michelle A. Marvier
Department of Environmental Studies and Sciences
Santa Clara University
Santa Clara, CA 95053
408-551-7189 mmarvier@scu.edu

Education & Credentials

B. S., <i>cum laude</i> , Biology	1990	Santa Clara University
Ph.D., Biology	1996	University of California, Santa Cruz
Certificate in Effective Instruction	2020	ACUE

Professional Positions

1996	Lecturer, San Jose State University
1997–1998	NSF Fellow and Postdoctoral Researcher, University of Washington
1998, 1999	Lecturer, Mountain Lake Biological Station, VA
1999	Lecturer, University of Washington
2000	Population Ecologist, National Marine Fisheries Service, Northwest Fisheries Science Center
1999–2005	Assistant Professor, Department of Biology, Santa Clara University
2004–2007	Executive Director, Environmental Studies Institute (ESI), Santa Clara University
2005–2006	Associate Professor, Department of Biology, Santa Clara University
2006–2010	Associate Professor, Dept. of Biology and ESI, Santa Clara University
2009–2010	Acting Associate Provost for Research Initiatives, Santa Clara University
2010–2011	Professor, Dept. of Biology and ESI, Santa Clara University
2011–	Professor, Dept. of Environmental Studies and Sciences, Santa Clara University
2011–2014	Department Chair, Dept. of Environmental Studies and Sciences, Santa Clara University
2015–2016	Associate Dean, College of Arts and Sciences
2017–2018	Associate Dean, College of Arts and Sciences

Fellowships and Research Grants

1990	U.C. Santa Cruz, Regents' Fellowship
1993 & 1995	Bodega Field Conferences, Graduate Student Research Award
1994 & 1995	U.C. Santa Cruz, Biology Board, Graduate Student Fellowship
1993–1996	National Science Foundation, Doctoral Dissertation Improvement Grant

- 1997–1998 National Science Foundation, Postdoctoral Fellowship
- 2004–2007 U.S. Environmental Protection Agency, National Center for Environmental Research. *Evidence based risk analysis: learning from our experiences with genetically modified crops*. \$232,347 (10/04 – 9/07)

Awards

Bernard Hubbard, S.J., Creative Collaboration Award, College of Arts and Sciences, Santa Clara University (2008)

Santa Clara University Award for Recent Achievement in Scholarship (2009)

Books

Kareiva, P. and M. **Marvier**. 2011. *Conservation Science: Balancing the Needs of People and Nature*. Roberts & Co. (reviewed in *Science*, *Ecology*, *Biotropica*, and *Conservation Biology*)

Kareiva, P. and M. **Marvier**. 2015. *Conservation Science: Balancing the Needs of People and Nature*. 2nd edition. MacMillan (formerly Roberts & Co.)

Kareiva, P., M. **Marvier**, and B. Silliman (editors). 2018. *Effective Conservation Science: Data Not Dogma*. Oxford University Press.

Journal articles & book chapters (undergraduate coauthors underlined)

Edgerly, J. S. and M. **Marvier**. 1992. To hatch or not to hatch? Egg hatch response to larval density and to larval contact in a treehole mosquito. *Ecological Entomology* 17: 28-32.

Marvier, M. 1996. Parasitic plant- host interactions: plant performance and indirect effects on parasite-feeding herbivores. *Ecology* 77: 1398-1409.

Marvier, M. and D. Smith. 1997. Conservation implications of host use by parasitic plants. *Conservation Biology* 11: 839-848.

Selected Research Presentations

A Workshop on Genetically Engineered Organisms, Wildlife and Habitats; National Academy of Sciences; Beckman Center, Irvine, CA. November 5, 2007. “Strategies for detecting ecological effects of GEOs in nature.” (invited speaker)

10th International Symposium on the Biosafety of Genetically Modified Organisms (ISBGMO). TePapa Museum, Wellington, New Zealand. November 27, 2008. “Meta-analysis of the effects of *Bt* crops on non-target organisms” (invited plenary speaker)

Metrics for Assessing Global Agriculture, Columbia University School of International and Public Affairs, New York, NY. October 1, 2009. “Genetic engineering for sustainable agriculture: potential and risks” (invited panelist)

Decision Making and Science: The Balancing of Risk Based Decisions that Influence the Sustainability of Agricultural Production – a conference sponsored by the OECD, Berlin, Germany. October 8, 2010. “The role of meta-analysis for risk assessment and considerations for risk management” (invited plenary speaker)

San Francisco Bay Area Conservation Biology Symposium. UC Berkeley, Berkeley, CA. February 12, 2011. “Making a difference with science: Limited by data and information or communication?” (invited plenary speaker)

Ecological Society of America Emerging Issues Conference. National Conservation Training Center, Shepherdstown, WV. February 28, 2012. “Balancing the need for conservation of biodiversity and provision of services for human wellbeing” (invited plenary speaker)

Association for Environmental Studies and Sciences Annual Meeting. Santa Clara University, Santa Clara, CA. June 21, 2012. “The value of nature: How do we reach the public’s heart?” (invited keynote speaker)

Society for Conservation Biology, Oakland, CA. July 16, 2012. “Looking forward, not backward, for our conservation vision and goals” (contributed symposium paper)

University of Oklahoma. February 18–19, 2014. “Protecting nature in the Anthropocene: The battle between pragmatism and purity within the conservation movement” (invited speaker)

San Francisco Bay Area Conservation Biology Symposium. Stanford University, May 7, 2016. “Conservation for the 99%” (invited keynote speaker)

International Coral Reef Symposium (ICRS), Honolulu, June 19-26, 2016. “Should environmental policy and advocacy focus on thresholds or degradation?” (contributed talk)

Utah State University. April 19–20, 2017. “Data not dogma: Countering confirmation bias to increase the effectiveness of conservation science” (invited talk)

Canadian Association of Professional Biology. May 10, 2019. “Is conservation too conservative given the pace of global change?” (invited plenary speaker)

Professional Service & Activities

Associate Editor: *Frontiers in Ecology and the Environment* (2004–)

Consulting Editor: McGraw-Hill Yearbook of Science and Technology (2005–2006)

Member: Blue Ribbon Science Advisory Panel for Northwest Forest Conservation, The Nature Conservancy (2004–2006)

Invited workshop participant and breakout group reporter: Confinement of Genetically Engineered Crops During Field Testing. USDA, 13–15 September 2004, Greenbelt, MD.

Invited panelist: “The Promise and Pitfalls of Agricultural Biotechnology,” AgBiotech 2006, March 19, 2006.

Co-organizer: Expert Workshop: “Non-target effects of Bt crops” January 8–10, 2007. NCEAS, Santa Barbara, CA.

Committee member: National Research Council Committee to Organize a Workshop on Research to Improve the Evaluation of the Impacts of Genetically Engineered Organisms on Terrestrial and Aquatic Wildlife and Habitats, 2007.

External consultant for program review: Department of Biology at University of San Diego, 2011.

External consultant for program review: Department of Environmental Science at University of San Francisco, 2013.

Senior Fellow: Breakthrough Institute, 2013-.

Advisory Board Member: Environmental Progress, 2016-.

Courses Taught

BIOL 22	Introduction to Evolution & Ecology	lower division, lecture
BIOL 23	Investigations in Evolution & Ecology	lower division, lecture & lab
BIOL 150	Conservation Biology	upper division, lecture & lab
BIOL 156	General Ecology	upper division, lecture & lab
BIOL 160	Biostatistics (cross-listed as ENVS 110)	upper division, lecture & lab
ENVS 21	Environmental Biology	lower division, lecture & lab
ENVS 101	Environmental Studies Capstone	upper division, lecture & seminar
ENVS 144	Natural History of Baja	upper div, lecture & field immersion
ENVS 153	Conservation Science	upper division, lecture
