NOTES

- Throughout this report, head count represents the number of unique (unduplicated) students enrolled at census. Occasionally, students enroll in two programs simultaneously (e.g., a graduate student enrolled as degree-seeking in one program and non degree-seeking in another program). The student would then be counted in the degree program only; units would be counted in the program where they were taken.
- Units shown in Total Enrollment are a sum of quarter and semester units from programs on quarter and semester calendars, respectively.
