

Theory and Methods

Courses Offered

This chart shows courses offered in this sub-area. Not all prerequisites are listed.
Please meet with your academic advisor to discuss your options.

Required Electives

Required Electives: AMTH 362 Stochastic Processes I	ELEN 432 Adaptive Signal Processing II
---	--

Supporting Electives

Supporting Electives: ELEN 223 Digital Signal Processing System Development	Supporting Electives: ELEN 226 Machine Learning and Signal Processing Using FPGAs	Supporting Electives: ELEN 244 Information Theory	Supporting Electives: ELEN 336 Detection, AMTH 358 Fourier Transforms	Supporting Electives: AMTH 358 Fourier Transforms
---	---	---	---	---
