

Santa Clara
UNIVERSITY

Santa Clara University Drug and Alcohol Abuse Prevention Plan Annual Notification 2025-26

Campus Community,

In an ongoing effort to educate, call our community to action, help those in need, and comply with Part 86 of the Drug-Free Schools and Communities Act, this in-depth notification is being provided to the University's campus community.

The University asks for the entire community's compliance with all alcohol and other drug policies and encourages active participation in fostering a responsible, safe, and caring community. Please keep this notification as a resource for you to refer to throughout the academic year.

This notification will outline the following:

- SCU standards of conduct that prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol.
- Applicable legal sanctions imposed under federal, state, and local laws for unlawful possession or distribution of illicit drugs and alcohol.
- A description of the health risks associated with the abuse of alcohol or use of illicit drugs.
- A list of alcohol and other drug campus resources available to students and employees, including counseling, treatment, and prevention resources.
- Disciplinary sanctions for violations of the SCU standards of conduct.

I. Standards of Conduct

Santa Clara University has several policies that govern the behavior of students, staff, and faculty as members of the SCU community. The standards of conduct apply to all students who are registered at SCU for at least one course for any type of credit, except continuing education credits. Students who hold part-time employment with SCU are covered by both student and employee policies. These standards of conduct also apply to all on-campus activities and to off-campus activities that are considered to be sponsored by the University. These standards of conduct further apply to student-sponsored social activities or professional meetings attended by employees, if these activities or meetings are considered SCU-sponsored activities.

Santa Clara University has the following policies in place that pertain to expressing standards of conduct regarding alcohol and other drug use:

- A. Drug-Free Policies - Student Handbook
- B. Drug-Free Workplace - Human Resources Policy Manual
- C. Student Conduct Code
- D. Alcoholic Beverage Policy - Student Handbook
- E. Responsible Hosting of Events Where Alcohol Is Served - Student Handbook
- F. Alcohol and Controlled Substance Policy Within University Housing - Housing and Residence Life Policies, Procedures, and Standards
- G. Alcohol and Controlled Substance Violations: Parental Notification Policy - Student Handbook
- H. Marijuana Policy - Student Handbook
- I. Smoke-Free and Tobacco-Free Policy - Student Handbook
- J. Medical Amnesty and Good Samaritan Policy - Student Handbook

Each of these policies are provided below. For the Student Conduct Code, only the applicable sections are provided.

A. Drug-Free Policy - Student Handbook

It is the goal of Santa Clara University to maintain a drug-free workplace and campus. The unlawful manufacture, distribution, dispensation, possession, and/or use of controlled substances or the unlawful possession, use, or distribution of alcohol is prohibited on the Santa Clara University campus, in the workplace, or as part of any of

the University's activities. This includes the unlawful use of controlled substances or alcohol in the workplace even if it does not result in impaired job performance or unacceptable conduct.

The unlawful presence of any controlled substance or alcohol in the workplace and campus itself is prohibited. The workplace and campus are presumed to include all Santa Clara premises where the activities of the University are conducted.

Violations will result in disciplinary action up to and including termination of employment for faculty and staff or expulsion of students. A disciplinary action may also include the completion of an appropriate rehabilitation program. Violations may also be referred to the appropriate authorities for prosecution.

The program information is distributed on an annual basis to all faculty, staff, and students. New staff employees are given a copy at New Employee Orientation. New faculty employees are given a copy at New Faculty Orientation. The program is reviewed at least biennially by the Dean of Students Office, Equal Opportunity & Title IX, and the Department of Human Resources. Contact the Dean of Students Office for a complete copy of the program.

B. Drug-Free Workplace - Human Resources Policy Manual

The Santa Clara University environment is a community in which there are responsibilities and freedoms governed by policies and codes of behavior, including sanctions for violations of these standards. Santa Clara University has a standard of conduct which prohibits the unlawful possession, use, or distribution of illicit drugs, marijuana¹, and/or alcohol by students and employees on Santa Clara University property or as a part of Santa Clara University activities. The University will impose disciplinary sanctions on students and employees ranging from educational and rehabilitation efforts up to and including expulsion or termination of employment and referral for prosecution for violations of the standards of conduct.

¹ The term "cannabis" typically refers to the *Cannabis sativa* plant, which contains over 500 chemical substances. "Marijuana" is commonly used to refer to parts of the plant or products containing substantial amounts of THC, which is the main chemical that causes mind-altering effects. State and federal legislation continues to use "marijuana"; therefore, "marijuana" is used in this document unless otherwise designated.

It is the goal of Santa Clara University to maintain a drug-free workplace. To that end, and in compliance with the Drug Free Workplace Act of 1988 (Public Laws 100-440 and 100-690), the University has adopted the following policies:

- Unlawful manufacture, distribution, dispensing, possession, or use of state and/or federally controlled substances is prohibited in the workplace.
- Employees who violate this prohibition are subject to corrective or disciplinary action as deemed appropriate, up to and including termination.

As an on-going condition of employment, employees are required to abide by this prohibition, and to notify the Department of Human Resources of any criminal drug statute conviction they receive for a violation occurring in the workplace. Notification must be provided in writing no later than five days after such a conviction.

If an employee receives such a conviction, the University shall take appropriate disciplinary action against the employee, up to and including termination, or require the employee to participate satisfactorily in an approved drug-abuse assistance or treatment program.

The Human Resources Department makes available information about drug counseling and treatment.

It is the responsibility of all University faculty, staff, and student employees to comply with this policy and to inform visitors of this policy.

Contact the Department of Human Resources for more information on this policy or to obtain a copy of the Drug Free Workplace Act of 1988 (Public Law 100-440 and 100-690). Contact the Employee Assistance Program for information or questions regarding drug misuse or abuse, counseling and treatment.

C. Student Conduct Code²

The following sections of the Student Conduct Code pertain to alcohol and other drug use:

² The University reserves the right to review student behavior that occurs on and off campus when such behavior is inconsistent with the expectations set forth in the Student Conduct Code.

Section 2. Illegal use, possession, or distribution of drugs. The use or possession of equipment, products, or materials that are used or intended for use in manufacturing, growing, using, or distributing any drug or controlled substance. Possessing, concealing, storing, carrying, or using any drug paraphernalia as defined in California Health and Safety Code §11364.5, including, but not limited to, objects intended for use, or designed for use in ingesting, inhaling, or otherwise introducing marijuana, cocaine, hashish, or hashish oil into the human body.

Section 18. Possession, consumption, sale, or action under the influence of alcoholic beverages by persons under the age of 21; furnishing alcoholic beverages to persons under the age of 21; consumption of alcoholic beverages in a public place (all areas other than individual residences, private offices, and scheduled private functions); excessive and inappropriate use of alcoholic beverages. (See also “Alcohol and Controlled Substances Within University Housing”).

D. Alcoholic Beverage Policy - Student Handbook

The Alcoholic Beverage Policy of Santa Clara University is based on the central and fundamental educational focus of the University of creating an environment that fosters learning. The University believes in personal responsibility, moral growth and development, awareness of communal consequences of personal choices, an obligation of citizenship, and responsible decision making. The University strives to build a community that is welcoming, hospitable, fair, inclusive, rooted in mutual understanding and appreciation, and respectful of diverse perspectives, traditions, and practices. Therefore, it is critical that the members of the University community be committed to the physical and emotional health and well-being of those who work, study, or congregate at the University. The policy serves as a guide and applies to all members of the campus community including students, parents, staff, faculty, alumni, and guests of the University.

The Alcoholic Beverage Policy is set in the context of the legal requirements governing the sale, consumption, and distribution of alcoholic beverages and in the context of community expectations for, not only upholding the laws but also sharing responsibility for the safety and welfare of other members of the community. The University will not tolerate disregard for the law, or behaviors and practices that counter the education of

the whole person, compromise rigorous and imaginative scholarship, inhibit moral and spiritual development, and constrain the University's fundamental values.

Consequently, the University does not condone underage drinking and considers intoxication, disorderliness, or offensive behavior deriving from the use of alcoholic beverages to be unacceptable, regardless of a person's age, or on-campus or off-campus status.

To cultivate a campus environment consistent with the stated goals and purposes of an educational institution, the University has adopted the following policies and procedures for the use of alcoholic beverages.

1. The service and consumption of alcoholic beverages on the University campus and at University-sponsored events off campus shall be done in compliance with applicable municipal, state, and federal laws and regulations, and in accordance with University policies and procedures. All persons on the University campus or at any University-sponsored event off campus where alcoholic beverages are being served or consumed are expected to abide by and respect all such laws, regulations, policies, and procedures. (See the following section for a partial listing of laws.)
2. Alcoholic beverages at events held on campus shall be supplied and sold only by the University food service provider or another designated, licensed agent of the University, except in situations covered by No. 5 of the Alcohol Beverage Policy. No other individual person or private party shall supply or sell alcoholic beverages at on-campus events or hold the license for the sale of alcoholic beverages on campus.
3. Alcoholic beverages shall not be served or consumed in public areas of the University except at authorized University events. Public areas include all indoor and outdoor spaces on the campus except individual residences and private departmental work areas and offices.
4. Alcoholic beverages shall not be served or consumed at any University-sponsored club sport athletic event or recreational sports activity.

5. The sponsorship of events by alcoholic beverage companies or distributors is limited to cash donations, donated products (other than those that directly promote or advertise alcoholic beverages) in support of fundraising or other special events as approved by the appropriate vice president, vice provost, or dean; and materials for University educational programs. The use of donated products for events that are held in Benson Memorial Center must also be approved by the University liaison to the food service contractor.
6. Alcoholic beverages may be served at on-campus events sponsored by University-affiliated student organizations whose membership is predominantly 21 years of age or older and/or at on-campus events specifically for the senior class, provided that University operating funds are not used to purchase the alcohol for the event.
7. The service of alcoholic beverages at all events on campus shall be in accordance with the Event Management Plan for Events with Alcohol, which should be submitted and approved by the Vice Provost for Student Life or designee.
8. For student organization-sponsored events off campus that include the service of alcoholic beverages, and that require University approval of the contract or agreement with the off-campus facility, an Addendum to Agreement must be signed by the service provider and received by the Vice Provost for Student Life or designee (Copies of this addendum are available in the Center for Student Involvement).

E. Responsible Hosting of Events Where Alcohol Is Served - Student Handbook

The event manager for events where alcoholic beverages are served is responsible for implementing the following practices:

1. University-affiliated student organizations must identify an event manager responsible for planning and managing the event. The event manager must be present throughout the entire event and must remain alcohol-free prior to and during the event. The event manager and the manager of the facility or his/her

designee will work together to ensure that all University event planning requirements are met.

2. The event manager must complete the Event Management Plan for Events with Alcohol and obtain all required signatures prior to the event.
3. An appropriate crowd management and security plan shall be developed for the event to monitor excessive drinking, control disorderly behavior.
4. The location used for the event should have controllable points of entry and exit.
5. Alcoholic beverages should not be the primary focus of an event (e.g., progressive drinking party, kegger, happy hour). Alcoholic beverages shall not be used as an inducement to participate in an event.
6. Promotions for the event shall not portray symbols of alcoholic beverage consumption (e.g., foaming mugs, cans, glasses, or kegs), shall not include any form of abusive consumption (e.g., drinking contests or competitions), and shall not emphasize frequency or quantity of alcoholic beverage consumption.
7. Promotions for the event should state that "identification will be required".

F. Alcohol and Controlled Substances Policies within University Housing - Housing and Residence Life Policies, Procedures, and Standards

In the interest of maintaining a safe and healthy living and learning environment, students are expected to either discourage misconduct, including the use of alcohol, marijuana, and other drugs, or report such violations. Students are responsible for removing themselves from all situations where alcohol, marijuana, or other drug policy violations are present. If a student chooses not to take such action and simply remains in the presence of the alcohol, marijuana, or other drug use, then they may also be in violation.

Any person under the age of 21 who is in possession of alcohol or is in a room where alcohol is knowingly or unknowingly present, will be assumed to have been consuming alcohol, as it is difficult to determine who was drinking and who was not.

Students of legal drinking age (21 years or older) may consume and possess alcoholic beverages in the privacy of their own rooms in the University student housing, provided the space is not shared with an underage roommate. Regardless of age, excessive and inappropriate use of alcoholic beverages is strictly prohibited, whether or not consumption occurred on or off campus.

Students may not be in the presence of, possess, distribute, or use marijuana (for medicinal or recreational purposes) in any property owned or controlled by the University.

Students are responsible for the actions of their guests (both SCU and non-affiliate) and will be held accountable for any violations of University standards, policies, or procedures by a guest.

G. Alcohol and Controlled Substance Violations: Parental Notification Policy - Student Handbook

The University supports students assuming personal responsibility and accountability for their actions as they learn to establish their independence. The University also recognizes that the process of establishing personal independence requires support and, at times, assistance or intervention. In the appropriate circumstances, notification of parents or legal guardians about an alcohol or controlled substance violation can be a means of support in that transition. Consistent with this approach, the Dean of Students or designee—whenever possible—will involve the student in a discussion about notifying their parents or legal guardian and will inform the student that notification will take place.

The Dean of Students is responsible for determining if and by what means parents or legal guardians will be notified when students under the age of 21 are found to have committed serious or repeated violations of federal, state, or local laws, or of University policies related to the possession, use, or distribution of alcohol or a controlled substance. The Dean of Students may assign the notification of parents or legal guardians to other University officials.

Notification of parents or legal guardians is applicable for violations of federal, state, or local laws, or for violations of any institutional policy regarding alcohol or controlled substances if these violations are also violations of the Student Conduct Code. Notification may also occur in any of the following circumstances:

- The violation involved harm or threat of harm to self, other persons, or property
- The violation involved an arrest in which the student was taken into custody
- The violation suggests a pattern of alcohol or controlled substance abuse
- The student who committed the violation required medical intervention or transport as a result of consumption of alcohol or a controlled substance
- The violation resulted in, or could result in the student being disciplined by the University including, but not limited to, the minimum disciplinary sanctions for alcohol and other drug violations, housing contract probation, housing contract cancellation, disciplinary probation, deferred suspension, suspension, or expulsion.

Nothing in these proposed guidelines shall prevent University officials from notifying parents or legal guardians of health or safety emergencies, regardless of the disciplinary status of the student or their age.

H. Marijuana Policy - Student Handbook

On November 8, 2016, voters in California passed Proposition 64, thereby allowing persons who are 21 and older to possess, transport, and buy up to 28.5 grams of marijuana and use it for recreational purposes.

The Department of Cannabis Control is the state agency responsible for regulating and licensing marijuana sales. It continues to be illegal to smoke marijuana in public and at locations where tobacco use is outlawed, such as restaurants, and within 1000 feet of a school, daycare or youth center when children are present. It is also illegal for motorists to smoke marijuana while driving.

Despite the change in state law regarding marijuana, Santa Clara University's policy remains unchanged: use and possession of marijuana on campus or in association with any university-sponsored or affiliated activity or program is prohibited. The policy complies with the federal Drug-Free Schools and Communities Act. Under this federal law, as a condition of receiving federal funds, an institution of higher education such as Santa Clara University must certify that it has adopted and implemented a program to

prevent the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees on campus and as part of its activities and programs. At the federal level, this law includes any amount of marijuana.

California Proposition 215, passed in 1996, allows for the use of marijuana for medical purposes. Students who qualify under Proposition 215 to use marijuana for medical purposes are not permitted to possess, store, provide, or use the marijuana on university-owned or controlled property (including, but not limited to, residence halls, academic buildings, athletic facilities, and parking lots), or during a university sanctioned activity, regardless of the location.

Propositions 215 and 64 create a conflict between state and federal laws. When state and federal laws are in conflict, federal law takes precedence. If Santa Clara University does not comply with federal law and regulations on marijuana possession and use on campus and in university programs and activities, it risks losing federal funds for student financial aid, faculty research and other important programs and services. Thus, Santa Clara University must continue to abide by federal laws and regulations and university policy barring the use and possession of any amount of marijuana on campus or in association with any university-sponsored or affiliated activity or program.

Students who fail to follow this policy are in violation of the Student Conduct Code and are subject to disciplinary action.

I. Smoke-Free and Tobacco-Free Policy - Student Handbook

Santa Clara University has adopted a smoke-free and tobacco-free policy on the University campuses in Santa Clara and Berkeley.

All faculty, staff, students, and visitors of the University are covered by this policy. In addition, all persons using the facilities of the University are subject to this policy.

Smoking means inhaling, exhaling, burning, or carrying of any lighted or heated tobacco product, as well as smoking substances that are not tobacco, and operating electronic smoking devices and other smoking instruments.

Tobacco Product means all forms of tobacco, including but not limited to cigarettes, cigars, pipes, hookahs, electronic smoking devices, and all forms of smokeless tobacco.

Tobacco-Related means the use of tobacco brand or corporate name, trademarks, logo, symbol, motto, or selling message that is identifiable with those used for any brand of tobacco products or company which manufactures tobacco products.

General Rules:

- Smoking is prohibited.
- The use of tobacco products is prohibited.
- The sale and advertising of tobacco products and tobacco-related products are prohibited.

Signs shall be conspicuously posted on campus.

We encourage all students to take responsibility and inform all visitors of this policy. Any community member may request a smoker to move off campus and those that do not comply can be reported to Campus Safety. Any questions or concerns regarding this policy can be answered by Campus Safety Services, the Dean of Students Office, or the Department of Human Resources.

Pursuant to Policy 702 of the Staff Policy Manual and Chapter 3.6.10 of the Faculty Handbook, staff and faculty are subject to this policy relating to a smoke-free environment and a drug-free school and workplace.

J. Medical Amnesty and Good Samaritan Policy - Student Handbook

Santa Clara University encourages students to seek help for themselves or another student, both on and off campus. In situations where a student requests emergency medical assistance for themselves or another student due to the use of alcohol or other drugs, SCU will support this help-seeking behavior through the Medical Amnesty and Good Samaritan policies. Although there is not a limit to the number of times these policies can be utilized, the University may take additional action in cases where repeated violations of the Student Conduct Code occur, regardless of how the incident was reported.

Medical Amnesty

If a student is under the influence and receives emergency medical attention for the use of alcohol or other drugs (“substance use”), the student will not receive disciplinary sanctions related to their substance use; instead, the student will be required to meet with a University staff member to discuss the incident and to attend one or more Wellness Coaching* sessions. Sanctions may be applied if the student does not complete these requirements.

Good Samaritan

If a student or students seek emergency medical assistance on behalf of another student due to the use of alcohol or other drugs (“substance use”), they will be considered a Good Samaritan and will not receive sanctions related to their own substance use. The Good Samaritan(s) is expected to stay with the person they are calling on behalf of until help arrives and provide relevant information to the responding agencies as requested. The Good Samaritan(s) will be offered the opportunity to attend an optional Wellness Coaching* session.

In either case, assuming all involved parties cooperate fully with responding agencies, the University will not impose sanctions for violations of the Student Conduct Code directly related to the use or possession of alcohol or other drugs. The University may impose sanctions if the involved student(s) are found to be in violation of other policies as outlined in the Student Conduct Code such as violence, destruction of property, distribution of substances, or non-compliance. Students also may be responsible for restitution related to damage or cleaning charges resulting from the incident. Additionally, these policies do not exempt individuals from law enforcement or third-party civil actions.

*Wellness Coaching is a non-judgmental, supportive, and confidential service offered to students by the Wellness Center. Conversations are centered around reflecting on their experience in the precipitating incident, identifying areas for personal growth, and strategizing for positive behavior change. The details of Wellness Coaching sessions are not shared with other university staff members or administrators.

II. Legal Sanctions

A student or employee who violates Santa Clara University policies on alcohol, marijuana, or other controlled substances is subject to both University discipline and criminal sanctions provided by federal, state, and local law. This section provides an overview of select state and federal laws pertaining to alcohol and other drugs.

Select Federal Laws on Drugs

For information about Drug Scheduling, please refer to the [Drug Enforcement Administration, Drugs of Abuse: A DEA Resource Guide](#).

Federal Trafficking Penalties - Distribution/Manufacturing/Possession with intent to Distribute (21 USC § 841(a)(1))

Federal Trafficking Penalties - Marijuana - Distribution/Manufacturing/Possession with intent to Distribute (21 USC § 841(a)(1))

Information provided below is based on the Drug Enforcement Administration, Drugs of Abuse: A DEA Resource Guide, 2024

Drug	Quantity	1st Offense	2nd Offense
Marijuana (Schedule I)	1,000 kg or more marijuana mixture; or 1,000 or more marijuana plants	Not less than 10 yrs. or more than life. If death or serious bodily injury, not less than 20 yrs., or more than life. Fine not more than life. Fine not more than \$10 million if an individual, \$50 million if other than an individual.	Not less than 15 yrs. or more than life. If death or serious bodily injury, life imprisonment. Fine not more than \$20 million if an individual, \$75 million if other than an individual.
Marijuana (Schedule I)	100 kg to 999 kg marijuana mixture; or 100 to 999 marijuana plants	Not less than 5 yrs. or more than 40 yrs. If death or serious bodily injury, not less than 20 yrs., or more than life. Fine not more than life. Fine not more than \$5 million if an individual, \$25 million if other than an individual.	Not less than 10 yrs. or more than life. If death or serious bodily injury, life imprisonment. Fine not more than \$8 million if an individual, \$50 million if other than an individual.
Marijuana	More than 10 kgs	Not less than 20 yrs. If	Not less than 30 yrs. If

<i>(Schedule I)</i>	hashish; 50 to 99 kg marijuana mixture More than 1 kg of hashish oil; 50 to 99 marijuana plants	death or serious bodily injury, not less than 20 yrs., or more than life. Fine \$1 million if an individual, \$5 million if other than an individual.	death or serious bodily injury, life imprisonment. Fine \$2 million if an individual, \$10 million if other than an individual.
Marijuana <i>(Schedule I)</i>	Less than 50 kg marijuana (except 50 or more marijuana plants regardless of weight); 1 to 49 marijuana plants	Not more than 5 yrs. Fine not more than \$250,000, \$1 million if other than an individual	Not more than 10 yrs. Fine \$500,000 if an individual, \$2 million if other than individual
Hashish <i>(Schedule I)</i>	10 kg or less	Not more than 5 yrs. Fine not more than \$250,000, \$1 million if other than an individual.	Not more than 10 yrs. Fine \$500,000 if an individual, \$2 million if other than individual
Hashish Oil <i>(Schedule I)</i>	1 kg or less	Not more than 5 yrs. Fine not more than \$250,000, \$1 million if other than an individual.	Not more than 10 yrs. Fine \$500,000 if an individual, \$2 million if other than individual

Additional Information for Federal Sanctions

Penalties can be increased if the defendant has a prior felony drug conviction or is a career offender (two or more felony drug offenses or crimes of violence).

There is a twenty year mandatory minimum prison sentence if death or serious bodily injury results from use of the drug.

Enhanced penalties are also available for distribution to individuals under 21 (21 USC Section 859) or distributions near schools, playgrounds, youth centers, arcades, pools, and public housing (21 USC Section 860).

Simple Possession is a misdemeanor with one year maximum imprisonment. This can become a felony with higher penalties if there are prior drug convictions (21 USC Section 844).

Appendix A includes additional references to Federal laws regarding alcohol and drugs.

California State Law on Drugs and Alcohol

The State of California has several laws pertaining to the unlawful possession, manufacture, distribution, sale, and use of drugs and alcohol. Please see Appendix A for a list of applicable codes, sections, descriptions, and possible sentences. The information provided in Appendix A is derived from the [California Department of Justice](#). The full text of applicable state laws and penalties can be found using the search feature on the [California Legislative Information website](#).

Local Ordinances

In addition to federal and state laws, cities and counties may also establish ordinances and impose sanctions. The City of Santa Clara and County of Santa Clara have jurisdiction over the main campus located in Santa Clara, while the City of Berkeley and County of Alameda have jurisdiction over the Jesuit School of Theology campus located in Berkeley.

Applicable ordinances for the City of Santa Clara can be found here:

<https://www.santaclaraca.gov/our-city/government/governance/ordinances>

Applicable ordinances for the County of Santa Clara can be found here:

https://library.municode.com/ca/santa_clara_county/codes/code_of_ordinances

Applicable ordinances for the City of Berkeley can be found here:

<https://berkeley.municipal.codes/BMC>

Applicable ordinances for the County of Alameda can be found here:

<https://www.acgov.org/government/admincode.htm>

III. Health Risks Associated with Alcohol Abuse, Illicit Drug Use and Commonly Abused Substances

Information provided below is based on the National Institute of Drug Abuse, Commonly Abused Drugs Chart

Substance	Nickname/Slang	Acute Effects	Health Risks
Nicotine (Tobacco)	Not applicable	Increased blood pressure and heart rate	Chronic lung disease; cardiovascular disease; stroke; cancers of the mouth, pharynx, larynx, esophagus, stomach, pancreas, cervix, kidney, bladder, and acute myeloid leukemia; adverse pregnancy outcomes; addiction
Alcohol (Ethyl Alcohol)	Booze	In low doses, euphoria, mild stimulation, relaxation, lowered inhibitions; in higher doses, Alcohol (ethyl alcohol) Found in liquor, beer, and wine Not scheduled/swallowed drowsiness, slurred speech, nausea, emotional volatility, loss of coordination, visual distortions, impaired memory, sexual dysfunction, loss of consciousness	Increased risk of injuries, violence, fetal damage (in pregnant women); depression; neurologic deficits; hypertension; liver and heart disease; addiction; fatal overdose
Marijuana/ Cannabis (Cannabinoid)	Blunt, dope, ganja, grass, herb, joint, bud, Mary Jane, pot, reefer, green, trees, smoke, sinsemilla, skunk,	Euphoria; relaxation; slowed reaction time; distorted sensory perception; impaired balance and coordination; increased heart rate and appetite; impaired	Cough; frequent respiratory infections; possible mental health decline; addiction

	weed	learning memory; anxiety; panic attacks; psychosis/	
Heroin (<i>Opioid</i>)	Smack, horse, brown sugar, dope, H, junk, skag, skunk, white horse, China white; cheese (with OTC cold medicine and antihistamine)	Euphoria; drowsiness; impaired coordination; dizziness; confusion; nausea; sedation; feeling of heaviness in the body; slowed or arrested breathing	Constipation, endocarditis; hepatitis; HIV; addiction; fatal overdose
Opium (<i>Opioid</i>)	Big O, black stuff, block, gum, hop	Euphoria; drowsiness; impaired coordination; dizziness; confusion; nausea; sedation; feeling of heaviness in the body; slowed or arrested breathing	Constipation, endocarditis; hepatitis; HIV; addiction; fatal overdose
Cocaine (<i>Stimulant</i>)	blow, bump, C, candy, Charlie, coke, crack, flake, rock, snow, toot	Increased heart rate, blood pressure, body temperature, metabolism; feelings of exhilaration; increased energy, mental alertness; tremors; reduced appetite; irritability; anxiety; panic; paranoia; violent behavior; psychosis	Weight loss; insomnia; cardiac or cardiovascular complications; stroke; seizures; addiction; nasal damage from snorting
Amphetamines (<i>Stimulant</i>)	Bennies, black beauties, crosses, hearts, LA turnaround, speed, truck drivers, uppers	Increased heart rate, blood pressure, body temperature, metabolism; feelings of exhilaration; increased energy, mental alertness; tremors; reduced appetite; irritability; anxiety; panic; paranoia; violent behavior; psychosis	Weight loss; insomnia; cardiac or cardiovascular complications; stroke; seizures; addiction

Methamphetamine <i>(Stimulant)</i>	Meth, ice, crank, chalk, crystal, fire, glass, go fast, speed	Increased heart rate, blood pressure, body temperature, metabolism; feelings of exhilaration; increased energy, mental alertness; tremors; reduced appetite; irritability; anxiety; panic; paranoia; violent behavior; psychosis	Weight loss; insomnia; cardiac or cardiovascular complications; stroke; seizures; addiction; severe dental problems
MDMA (methylenedioxy-methamphetamine) <i>(Club drug)</i>	Ecstasy, Adam, clarity, Eve, lover's speed, peace, uppers	Mild hallucinogenic effects; increased tactile sensitivity, empathic feelings; lowered inhibition; anxiety; chills; sweating; teeth clenching; muscle cramping	Sleep disturbances; depression; impaired memory; hyperthermia; addiction
Flunitrazepam <i>(Club drug)</i>	Forget-me pill, Mexican Valium, R2, roach, Roche, roofies, roofinol, rope, rophies	Sedation; muscle relaxation; confusion; memory loss; dizziness; impaired coordination/	Addiction
Gamma Hydroxy Butyrate <i>(Club drug)</i>	GHB, G, Georgia home boy, grievous bodily harm, liquid ecstasy, soap, scoop, goop, liquid X	Drowsiness; nausea; headache; disorientation; loss of coordination; memory loss/	Unconsciousness; seizures; coma
Ketamine <i>(Dissociative drug)</i>	Cat Valium, K, Special K, vitamin K	Feelings of being separate from one's body and environment; impaired motor function; analgesia; impaired memory; delirium	Anxiety; tremors; numbness; memory loss; nausea; respiratory depression and arrest; death
PCP and Analogs	Angel dust, boat, hog, love boat,	Feelings of being separate from one's body and	Anxiety; tremors; numbness; memory loss;

<i>(Dissociative drug)</i>	peace pill	environment; impaired motor function; analgesia; psychosis; aggression; violence; slurred speech; loss of coordination; hallucinations	nausea
Salvia Divinorum <i>(Dissociative drug)</i>	Salvia, Shepherdess's Herb, Maria Pastora, magic mint, Sally-D	Feelings of being separate from one's body and environment; impaired motor function	Anxiety; tremors; numbness; memory loss; nausea
Dextromethorphan <i>(Dissociative drug)</i>	DXM, Robotripping, Robo, Triple C	Feelings of being separate from one's body and environment; impaired motor function; euphoria; slurred speech; confusion; dizziness; distorted visual perceptions	Anxiety; tremors; numbness; memory loss; nausea
LSD <i>(Hallucinogen)</i>	Acid, blotter, cubes, microdot, yellow sunshine, blue heaven	Altered states of perception and feeling; hallucinations; nausea; increased body temperature, heart rate, blood pressure; loss of appetite; sweating; sleeplessness; numbness; dizziness; weakness; tremors; impulsive behavior; rapid shifts in emotion	Flashbacks, Hallucinogen Persisting Perception Disorder
Mescaline <i>(Hallucinogen)</i>	Buttons, cactus, mesc, peyote	Altered states of perception and feeling; hallucinations; nausea; increased body temperature, heart rate, blood pressure; loss of appetite; sweating; sleeplessness; numbness; dizziness; weakness;	Not applicable

		tremors; impulsive behavior; rapid shifts in emotion	
Psilocybin (<i>Hallucinogen</i>)	Magic mushrooms, purple passion, shrooms, little smoke	Altered states of perception and feeling; hallucinations; nausea; nervousness; paranoia; panic	Not applicable
Anabolic Steroids (<i>Other compound</i>)	Roids, juice, gym candy, pumpers	No intoxication effects	Hypertension; blood clotting and cholesterol changes; liver cysts; hostility and aggression; acne; in adolescents—premature stoppage of growth; in males—prostate cancer, reduced sperm production, shrunken testicles, breast enlargement; in females—menstrual irregularities, development of beard and other masculine characteristics
Inhalants (<i>Other compound</i>)	Solvents (paint thinners, gasoline, glues); gases (butane, propane, aerosol propellants, nitrous oxide); nitrites (isoamyl, isobutyl, cyclohexyl); laughing gas, poppers, snappers, whippets	(<i>Varies by chemical</i>) Stimulation; loss of inhibition; headache; nausea or vomiting; slurred speech; loss of motor coordination; wheezing	(<i>Varies by chemical</i>) Cramps; muscle weakness; depression; memory impairment; damage to cardiovascular and nervous systems; unconsciousness; sudden death

IV. Alcohol and Other Drug Programs

For Employees

Faculty or staff members who are concerned about substance use, abuse, and rehabilitation are strongly encouraged to contact their physicians, health plan, and/or the Employee Assistance Program, currently offered through **Concern**.

To access services through Concern, just call (800) 344-4222 24/7 or visit [Concern's website](#), and log in with your company code: SCUEAP. Then click on “Get Services” to create your confidential digital dashboard. View the [Concern EAP - SCU Benefit Summary](#) for more information.

Concern is available to all benefit eligible staff and faculty, and to their spouse/domestic partner, and dependent children up to age 26. The clinical support services provided by Concern are inclusive of alcohol and other drug dependency.

Concern also has a resource library with tools and resources organized by topic with articles, toolkits, webinars, apps, assessments, videos, podcasts, newsletters, and so much more. Click “Services and Resources by Topic” in the portal.

Many health insurance plans provide coverage for substance abuse programs to address substance abuse and rehabilitation, as well.

Employees may also contact the Department of Human Resources, which can refer them to appropriate resources (community or private agencies) that provide complete, confidential substance abuse counseling.

Successful completion of an appropriate rehabilitation program, including participation in aftercare, may be considered as evidence of eligibility for continued or future employment.

For Students

The Center for Student Involvement coordinates orientation programming for incoming first-year students. All incoming first-year students receive a training course as part of their orientation to SCU, AlcoholEdu for Colleges through Vector Solutions, in

coordination with the Wellness Center. Using a story-first approach to engage student learners in meaningful alcohol prevention education, this course centers authentic student-driven narratives to explore key topics such as supporting peers in recovery, understanding the short and long-term effects of alcohol and substance use, and the physical, mental, and emotional benefits of abstaining and/or reducing the use of these substances while in college. By blending narrative-driven instruction with interactive engagement, this course equips students with the tools to make positive choices and create a culture of awareness, intervention, and support.

The Wellness Center facilitates student health and wellness through the following programs and offerings:

- [Substance Use Consult/Wellness Coaching](#) - If you would like to talk to someone about your substance usage, please schedule a confidential meeting with the Assistant Director for Substance Use and Recovery Programs at the Wellness Center, Jason Muñoz (jmunoz2@scu.edu).
- [The Burnout Broncos](#) (University's Collegiate Recovery Program) - The mission of the Burnout Broncos is to provide a supportive community where students in recovery, and those in hope of recovery, can achieve academic success while participating in a unique college experience free from addiction to alcohol and other substances.
- [One Night at a Time \(ONAAT\)](#) - A 12-step group of Alcoholics Anonymous that is open to SCU students and young people in the community who have a desire to stop drinking. Each week, a speaker shares for 15 minutes and afterwards the meeting opens up for others to share. While meetings are not conversational, questions and conversation often take place before and after meetings. 12-step programs are spiritual in nature and encourage sponsorship. Any student curious about 12-step programming, sponsorship, or sobriety is encouraged to attend.
- [Sober @ SCU](#) - Substance-free housing is available to our incoming freshman and rising sophomores. All students accepted into substance-free housing will live on the same floor in the same residence hall, giving them a great opportunity to be in community with other students with shared values and lifestyles.
- [Naloxone/Narcan Resources](#) - All students and employees have access to free Narcan/Naloxone. There are two vending machines stocked with Naloxone on campus, which are free of charge. The vending machines are located in the basement of Benson Memorial Center, across from the bathrooms, and on the

first floor of the Learning Commons. Tap your access card up to twice a day to dispense a 2-dose box of Naloxone. For additional boxes of Naloxone, please come to the Wellness Center at 852 Market Street, across the street from Swig Residence Hall. You may request training from the Assistant Director of the Wellness Center, Jason Muñoz (jmunoz2@scu.edu). Furthermore, Campus Safety Services staff and SCU EMS also carry Narcan and are trained to use it during medical emergencies.

- [Peer Health Educators \(PHE\)](#) - The mission of the Peer Health Education Program is to provide an effective peer network to encourage, support, and advance healthful living for all SCU students.

Counseling and Psychological Services (CAPS) provides additional support for students. To schedule a phone consultation to discuss your drinking and drug usage, please call (408) 554-4501. For 24/7 after-hours support, call (408) 554-5220.

Other Helpful Groups and Resources:

- [Into the Wild](#) - A chartered student organization at SCU that provides students with opportunities to get off campus and explore California's wilderness. Every week are organized trips for all skill levels that include hiking, backpacking, camping, rock climbing, kayaking, rafting, surfing, and more. Into the Wild aims to promote healthy, substance-free fun while encouraging education in environmentally sustainable practices.
- [Thriving Campus](#) - Students looking for off-campus resources can search the user-friendly directory that includes off-campus therapists, prescribers, group practices and treatment centers in the local community. You may filter by specialties, including substance abuse.
- [SMART Recovery](#) - Self-Management and Recovery Training is a method of moving from addictive substances and negative behaviors to a life of positive self-regard and willingness to change. Includes free meetings and online tools.
- [The Other Bar](#) - A non-profit, confidential network of recovering lawyers, law students, and judges throughout California, dedicated to assisting others within the legal profession who are suffering from alcohol and substance abuse problems.
- [MethadoneCenters](#) - Methadone Centers provides free resources and information to help overcome substance abuse, as well as a comprehensive directory that connects individuals struggling with opioid addiction to methadone treatment centers in their area.

- [Sober](#) - Sober (formerly Alcoholics Anonymous) helps people find local AA meetings and provides free resources for any stage of the recovery journey.
- [Additions.com](#) - Alcohol and drug rehab centers in Santa Clara offer diverse funding options including free care, private insurance, Medicaid and Medicare. These options are helpful for any financial barriers that may hinder you from receiving drug and alcohol use treatment.
- [Narcan Saves Lives](#) - A Narcan locator with up-to-date informational guide with data, statistics, videos, PDFs, a Narcan locator map, and much more.
- [Start Your Recovery](#) - An evidence-based site developed with input from top behavioral health experts to address the unique needs of young adults facing substance use challenges. With their guidance, SCU developed a comprehensive directory of support resources in Santa Clara, where students can:
 - Access local peer support groups and counseling resources
 - Find local treatment options vetted by the Substance Abuse and Mental Health Services Administration
 - Filter to find programs tailored to students, including low-cost and no-cost resources

V. Disciplinary Sanctions - Students

The following includes a description of the range of disciplinary sanctions Santa Clara University will impose if the standards of conduct are violated. Santa Clara University is responsible for enforcing the standards of conduct set forth in the following policies in a consistent manner, though disciplinary sanctions may differ depending on terms set forth in union contracts or other policy documents.

Minimum Student Conduct Hearing Outcomes for Alcohol, Marijuana, and Other Drug Violations

This policy identifies the minimum standard for student conduct hearing outcomes for alcohol, marijuana, and other drug violations in accordance with the Student Conduct Code, University Alcoholic Beverage Policy, and Alcohol and Other Controlled Substances Within University Housing Policy. The University reserves the right to apply these hearing outcomes for student misconduct that takes place on-campus, in campus-operated facilities, in public, or at non-affiliated properties.

Alcohol, Marijuana, and Other Drugs

The phrase “alcohol, marijuana, and other drugs” broadly includes, without limitation, any stimulant, intoxicant, nervous system depressant, hallucinogen, or other chemical substance, compound or combination when used to induce an altered state, including any otherwise lawfully available product used for any purpose other than its intended use (e.g., the misuse of prescription drugs, over the counter drugs, or household products). The operational definitions of the words alcohol, marijuana, and other drugs are:

- Alcohol: Intoxicating beverages such as beer, wine, and liquor.
- Cannabis: Refers to all products derived from the plant Cannabis Sativa. The cannabis plant contains about 540 chemical substances. Some parts of or products from the plant Cannabis Sativa contain substantial amounts of tetrahydrocannabinol (THC). THC is the substance that is primarily responsible for the effects on a person’s mental state.³

Other Drugs:

- Illicit Drugs: Cocaine, heroin, ecstasy (MDMA), amphetamines, methamphetamines, hallucinogens (i.e. LSD, psilocybin mushrooms), and similar substances that are considered to be illicit drugs.
- Misuse of Prescription Drugs: Misuse of prescription drugs, including opiates/pain-killers (i.e. morphine, oxycodone), stimulants (i.e. Ritalin), sedative-hypnotics (i.e. barbiturates, anxiolytics) and other psychoactive drugs are prohibited. This includes taking medication that is not prescribed to you, taking more than the prescribed dose of medication, or taking prescription medication for a reason other than the intended use (i.e. to produce a “high”).

Adherence to Local, State, and Federal Laws

Santa Clara University adheres to local, state, and federal laws pertaining to alcohol, marijuana (including its various forms), and other drugs, and requires all University

³ This policy specifically refers to “cannabis” for purposes of disciplinary sanctions, so it is designated so here.

community members to follow local, state, and federal guidelines, laws, and regulations. In instances that may be in violation of local, state, or federal law, the University reserves the right to report such cases to law enforcement.

Alcohol, Marijuana, and Other Drug Programs and Services

The Wellness Center and Student Health, Counseling, and Well-Being provide programs and support for students who are struggling with their use of alcohol, marijuana, and other drugs. These offices can also refer students to non-affiliated counseling and treatment facilities.

Cumulative Nature of Alcohol, Marijuana, and Other Drug Violations

Through the University conduct process, hearing officers and hearing boards determine outcomes for student conduct hearings. When doing so, they take into account the nature of the violation and any previous violations of the Student Conduct Code.

When determining the hearing outcome for an alcohol, marijuana, and other drug violation, the University uses an 18 month timeline to identify if a violation is a first, second, third, etc. violation. That is, if 18 months pass from the date of the previous alcohol, marijuana, or other drug violation without the student being found responsible for an additional alcohol, marijuana, or other drug violation then the outcome for an additional violation will be considered the same category as the previous violation. For example, if a student is found responsible for a first alcohol violation in October of their first year on campus and is found responsible for a second alcohol violation during May of their third year on campus, the violation will be considered a first violation because 21 months passed between each violation. It will not be considered a second violation unless the details of the violation are deemed egregious or serious enough to warrant an elevated response from the University.

Through the conduct process, Santa Clara University takes into account the student's whole behavior related to the Student Conduct Code. As such, repeated violations of the Student Conduct Code, even if those violations may appear disparate in specific details, will result in an elevated response from the University. Santa Clara University responds to violations of the Student Conduct Code related to alcohol, marijuana, or other drugs using a matrix of impact and occurrence.

Stages of Alcohol, Marijuana and/or Other Drug Violations at Santa Clara University

Santa Clara University recognizes that students are emerging adults and are thus equipped to make their own decisions. At times, these decisions may be incongruent with University expectations and provide for the health, safety, and welfare of individuals. Santa Clara University distinguishes behavior surrounding alcohol, marijuana, and other drugs across the following categories in relation to potential impact to self, others, and property: A, B, and C. Santa Clara University reserves the right to refer violations surrounding controlled substances to local, state, or federal authorities. It is up to the discretion of the University hearing officer or board to determine the category and outcomes for multiple violations in different categories.

Category	Description (In the Handbook)
A	Any behavior that is deemed as having low impact to self, others, and property. Low impact refers to situations in which a student is in the presence of prohibited activities (such as activities involving alcohol, marijuana, or other drug use) but is not participating in the behavior.
B	Any behavior that is deemed as having moderate impact to self, others, and property. Moderate impact refers to a student's participation in prohibited activities and/or behavior involving alcohol, marijuana, and other drug use, and the impact of the behavior is primarily limited to the misuse of the substance.
C	Any behavior that is deemed as having high impact on the individual, others, and property. High impact refers to excessive consumption, and/or distribution (including hosting or facilitating a gathering of others) of alcohol, marijuana, or other drugs or accompanying misconduct that is illegal and/or prohibited by the University and is deemed by the hearing officer or hearing board to be severe in nature due to the scope and magnitude of the impact to self, others, and property (such as, though not limited to the number of students involved, disruptive behavior, vandalism, threat of harm, incurred physical harm).

Gatherings Resulting in Alcohol, Marijuana, and Other Drug Violations

Students found responsible for hosting a gathering involving the illegal and/or University prohibited use of alcohol or marijuana, or for participating in such behavior in public areas will likely be considered a Category C violation. Violations involving controlled substances other than marijuana will be a Category C violation.

Falsification of Identification for the Procurement of Alcohol or Marijuana

The possession, procurement, or distribution of falsified United States federal or state government identification documents (“fake ID”), or altering, falsifying, forging, duplicating, or reproducing United States federal or state government identification documents is a serious legal offense and constitutes a crime in the state of California. Students found with falsified identification documents are in violation of the Student Conduct Code and will be subject to outcomes as determined by the hearing officer or hearing board.

Excessive and Inappropriate Possession and Use of Alcohol

Regardless of a person’s age, Santa Clara University prohibits the excessive and inappropriate use of alcoholic beverages (See Student Conduct Code, item 18). Excessive and inappropriate use is inclusive of, though not limited to, the amount of alcohol in a student’s possession, the amount consumed, and how a student consumes the alcohol.

Amount in Possession: Examples of excessive and inappropriate possession of alcohol include, but are not limited to: establishment of a private bar, storage of excessive quantities of alcohol, or possession and/or use of a tap or keg, kegerators, beer bongs, or other equipment for the sole use of consuming alcohol. Excessive possession of alcohol is prohibited on campus premises and in campus-owned facilities, including but not limited to residential facilities.

Amount Consumed: The Centers for Disease Control and Prevention (CDC) and the Dietary Guidelines for Americans define standard drink sizes and moderate and excessive drinking as it pertains to alcohol consumption.

- *Standard drinks* are defined as: one 12-ounce beer, one 8-ounce serving of malt liquor, one 5-ounce glass of wine, or one 1.5-ounce shot of distilled spirits.
- *Moderate drinking* is defined as no more than 1 drink per day for women (not to exceed 7 drinks in a week) and no more than 2 drinks per day for men (1 drink per hour and not to exceed 14 drinks in a week).
- *Excessive drinking* includes binge drinking, heavy drinking, any drinking by people younger than age 21, and drinking by anyone who is currently taking prescription or over-the-counter medications.

	Binge drinking is defined by:	Heavy drinking is defined by:
Women	4 or more drinks in a single occasion	8 or more drinks per week
Men	5 or more drinks during a single occasion	15 or more drinks per week

Nature of Consumption (Drinking Games): Santa Clara University prohibits drinking practices, including drinking games, that encourage participants to consume alcohol or promote intoxication, and any paraphernalia that supports such activity.

Whether or not alcohol is present, drinking games are prohibited. Playing drinking games or participating in activities that promote excessive consumption are prohibited in any campus facility and on campus property, including but not limited to residential housing facilities. Drinking games are incongruent with the University’s mission to promote a healthy learning environment for students. Examples of drinking games include, but are not limited to: beer pong, flip cup, king’s cup, and beer die.

Schedule of Minimum Hearing Outcomes Related to Alcohol Violations

Category	1st violation	2nd violation	3rd violation*
A	Monetary fine \$50	Monetary fine \$75 Parental notification	Becomes Category B violation
B	Monetary fine \$50 Parental notification	Monetary fine \$75 Parental notification	Monetary fine \$100 Parental notification

	Educational outcome	Alcohol educational program Housing contract probation	Alcohol education program Housing contract cancellation Disciplinary probation
C	Monetary fine \$100 Parental notification Alcohol educational program Housing contract probation	Monetary fine \$200 Parental notification Alcohol educational program Housing contract cancellation Disciplinary probation	The full range of hearing outcomes (through expulsion from the University)

It is up to the discretion of the University hearing officer or hearing board to determine the category and outcomes for multiple violations in different categories.

**Any subsequent violation outcomes will be at the discretion of the hearing officer or hearing board.*

Marijuana and Other Drugs

Possession and/or Consumption: Santa Clara University adheres to local, state, and federal laws surrounding marijuana (including its various forms) and requires community members to follow local, state, and federal guidelines, laws, and regulations related to marijuana.

In order to remain in compliance with federal law, Santa Clara University prohibits the possession, consumption, and/or distribution of marijuana (including its various forms) by Santa Clara University community members. For more information, refer to the Marijuana Policy, and the Smoke-Free and Tobacco-Free Policy in the Student Handbook.

Schedule of Minimum Hearing Outcomes Related to Marijuana and Other Drug Violations

A, B, or C apply to marijuana hearing outcomes. The prohibited use of controlled drugs other than marijuana will minimally result in the administration of a Category C hearing outcome.

Category	1st violation	2nd violation	3rd violation*
A	Monetary fine \$50	Monetary fine \$75 Parental notification	Becomes Category B violation
B	Monetary fine \$50 Parental notification Educational outcome	Monetary fine \$75 Parental notification Marijuana or other drug educational program Housing contract probation	Monetary fine \$100 Parental notification Marijuana or other drug education program Housing contract cancellation Disciplinary probation
C	Monetary fine \$100 Parental notification Marijuana or other drug educational program Housing contract probation	Monetary fine \$200 Parental notification Marijuana or other drug educational program Housing contract cancellation Disciplinary probation	The full range of hearing outcomes (through expulsion from the University) may be implemented.

It is up to the discretion of the University hearing officer or hearing board to determine the category and outcomes for multiple violations in different categories.

**Any subsequent violation outcomes will be at the discretion of the hearing officer or hearing board.*

Compliance with Hearing Outcome

Students must comply with all assigned outcomes by the deadline set forth in the hearing outcome letter. Failure to complete or comply with any assigned outcome or failure to meet an assigned deadline (if applicable) may result in further disciplinary action including, but not limited to, a \$150 late fee and/or placing a Registration Hold on a student’s University account preventing the student from registering or adding a course until the assigned outcome(s) is completed.

Administrative Sanctions

The administrative sanction gives official notice that a procedural violation has occurred and will advise the student on how the situation is to be corrected.

Disciplinary Disqualification of University Financial Aid

Financial aid may be contingent upon a student remaining in good conduct standing within the University. If a student faces significant disciplinary matters, is placed on disciplinary probation, deferred suspension, or is suspended, the financial aid arrangement is subject to review. The review may be initiated by either the Office of Student Life or the Office of Financial Aid.

A student who is placed on disciplinary probation for the first time will continue to remain eligible for federal financial aid unless otherwise prohibited by federal, state, or University regulations. If within two years of being placed on disciplinary probation, a student is placed on suspension, deferred suspension, or probation (a second time), the student will automatically lose all eligibility for institutional aid effective the date the suspension, deferred suspension, or second probation is imposed.

Appendix A

California offense descriptions and legal sanctions for alcohol and other drug violations, provided by The State of California Department of Justice. This includes select federal laws.
