University Summer Graduate Housing Contract

The UNIVERSITY SUMMER GRADUATE HOUSING CONTRACT ("USGHC") is a legally binding agreement between the student who will reside in university-provided housing ("Student") and Santa Clara University (the "University") (collectively, the "Parties"), covering room accommodations in University-provided student housing ("Housing"), and is effective as of the date signed by Student. Both Parties assume the rights and responsibilities outlined in the Terms and Conditions of Occupancy and all supporting documents upon acceptance of Student's request for Housing. This USGHC is nontransferable.

This housing contract is not a lease and is not subject to California Landlord-Tenant laws. It is a license to occupy university-provided housing as part of an academic community. A license is a revocable contract. Therefore, Santa Clara retains the ability to revoke the right to occupy university-provided housing at any time. This agreement does not grant rights to possess or occupy a specific room or residence. You may be temporarily relocated to other university-provided housing or denied the privilege to live in university housing at any time in accordance with Santa Clara policies, as a result of an emergency, or as required by law.

The contracted period of occupancy is for two months, or the balance of the summer term during which occupancy occurs. If Student is enrolled in the School of Law ("Law"), the contracted period of occupancy shall be from June 1, 2025 through July 31, 2025. If Student is enrolled in a graduate program other than Law, the contracted period of occupancy shall be from July 1, 2025 through August 30, 2025. Students authorized to check in prior to the contracted period of occupancy may be assessed additional daily room charges. If Student vacates Housing during the contract period without an official, written, approved release from the Director of Housing Business Services or designee, Student continues to be liable for charges during the contract period.

This Agreement shall be governed by, and construed in accordance, with the laws of the State of California, without regard to its conflict of laws provisions. The parties further submit to, and waive any objections to, personal jurisdiction of, and venue in, the federal and state courts sitting in Santa Clara County, California.

3. ASBESTOS DISCLOSURE; OPERATION AND MAINTENANCE PROGRAM

Asbestos is a mineral on the list of chemicals known to the State of California to cause cancer. Asbestos is present in the sprayed-on acoustic ceiling material (which has a "cottage cheese" appearance) which may be present in University-provided undergraduate student housing, including in hallways and other areas in the building. Asbestos may also be present in other materials in University buildings including the insulation fireproofing and floor tiles.

The University has instituted operations and a maintenance program directed at maintaining buildings in accordance with any applicable Federal and State safety requirements regarding asbestos-containing material. This program is designed (among other things) to prevent release of asbestos fibers into the air; minimize disturbance or damage to asbestos-containing materials; monitor the conditions of materials and air in the building; and regulate maintenance, renovation and construction activities. No matter how small the percentage of such material may be, Student and Student's invitees shall comply with such rules and regulations as the University from time to time may prescribe in connection with the University's operations and maintenance program, including, without limitation the following:

Therefore, the University has inspected the unit/room and knows of no damp or wet building materials and knows of no mold or mildew contamination. Student is hereby notified that mold, however, can grow if the room/unit is not properly maintained or ventilated. If moisture is allowed to accumulate in the room/unit, it can cause mildew and mold to grow. It is important that Student regularly allows air to circulate in the room/unit. It is also important that Student keeps the interior of the room/unit clean and that Student promptly notifies the University of any leaks, moisture problems and/or mold growth.

Student agrees to maintain the room/unit in a manner that prevents the occurrence of an infestation of mold or mildew. Student agrees to uphold this responsibility by complying with the following list of responsibilities:

common pests and actively monitors the conditions of building exteriors and common spaces within residence halls.

Pests can pose health hazards if not managed properly. Student agrees to maintain the room/unit in a manner that prevents the occurrence of an infestation, keeping free of dirt, debris, and food waste that might attract pests to the space, including placing food in properly sealed containers, as needed. Trash, composting, and recycling should be removed from Students room daily. Tampering with or removing window screens may also contribute to pest presence within the space.

Student must take reasonable steps to prevent pests and shall notify the University immediately in writing regarding any signs of a pest problem. The University will take all reasonable steps necessary to control or destroy pests, following a visual inspection. Length of treatment leading to effective elimination may take many weeks depending on the pest and severity. Student agrees to comply with any protocol provided from a licensed pest control service, including addressing any concerns within the assigned space that may have contributed to the development of a pest problem.

6. PESTICIDE NOTIFICATION

Student agrees to the following options when submitting a request to address pest control issues:
